ABOUT JACKSON FAMILY WINES

We have been a family-owned and led wine company since planting our first vines in Northern California in 1974. Jess Jackson and Barbara Banke founded Jackson Family Wines with a multi-generational vision to create a collection of world-class wine estates and preserve an agricultural heritage for hundreds of years to come. Today, three generations of the Jackson family work alongside the company's employees to build a sustainable future, rooted in a long-term commitment to elevating quality, fostering social responsibility, enhancing environmental stewardship, and finding new paths to engage our customers.

Through hard work and an entrepreneurial mindset, we have grown into a global portfolio of wineries and vineyards that spans California, Oregon, France and Italy in the northern hemisphere and Australia, Chile and South Africa in the southern half of the globe. Inspired by the tenet that only great vineyards can produce great wine, the Jackson family has meticulously acquired vineyards situated in cooler climates with well-draining soils on benchlands, ridges and hillsides. Whether from the steep mountainsides of Napa Valley, the coastal ridges of Sonoma Coast, the rugged slopes of Willamette Valley or the verdant hillsides of Tuscany, each winery's distinct style reflects the unique terroir of our estate vineyards and the considerable creativity of our winemakers.

While our family of winegrowers has expanded over the years, our family culture and passion for making meaningful wines have never changed. Building on our four-decade history, we'll continue to produce the exceptional wines our customers have come to expect and remain at the forefront of positive change in our industry through innovation and leadership.

BARBARA BANKE

CHAIRMAN AND PROPRIETOR, JACKSON FAMILY WINES

Jackson Family Wines Chairman & Proprietor Barbara R. Banke spent four decades leading the family wine company she co-founded with her late husband, wine icon Jess Jackson. Since 2011, Banke has continued to strategically grow and elevate the family wine business with a multigenerational approach and unwavering commitment to crafting the highest quality wines.

Barbara is a passionate advocate for children's and educational charities around the country. Under Barbara's leadership, Jackson Family Wines supports more than 250 nonprofit organizations. She has served as the Chair of the Sonoma County Wine Auction raising a record breaking \$5.2 million for the local community. And for more than 30 years, both the Jackson family and Jackson Family Wines have supported multiple regional wine auctions across the U.S. that give back to vital local community-based organizations and charitable causes. Barbara also supports charities in the areas where she races thoroughbred horses and donates to equine scientific research.

A graduate of UCLA and Hastings Law School, Barbara is a former land use and constitutional law attorney who has argued cases before the United States Supreme Court and Courts of Appeal. When she is not sourcing new vineyard sites, Banke is active in Stonestreet Farm, the family's Lexington, Kentucky-based equestrian racing stables.

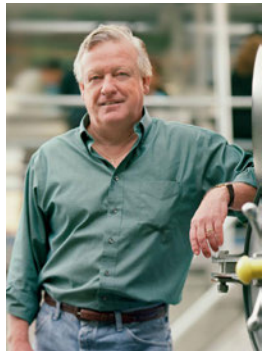

DON HARTFORD

VICE CHAIRMAN, JACKSON FAMILY WINES

Prior to serving as Vice Chairman of Jackson Family Wines, Don held key leadership positions throughout his nearly four decades at Jackson Family Wines, including roles as General Legal Counsel, President of La Crema Winery and CEO of the family's Artisan and Estate wineries. Don is immersed in winemaking and winery management, and in the process, continues to nurture one of his first loves – the land and farming.

Don grew up on a small strawberry farm in western Massachusetts and earned his Bachelor of Arts at the University of Massachusetts at Amherst. In 1982, Don received his law degree from Santa Clara University, where he met his wife, Jennifer Jackson Hartford, where both attended law school. That same year, Jennifer's father Jess launched a 16,000-case winery called Kendall-Jackson.

Today, Don and his wife Jenny, a co-proprietor of Jackson Family Wines, make their home in Sonoma County. Their two children, daughter Hailey and son MacLean, are third generation family members at Jackson Family Wines. Don, Jenny, Hailey and MacLean are the sole owners of Hartford Family Winery in Russian River Valley.

JENNIFER JACKSON-HARTFORD

Jenny Jackson Hartford, Jess Jackson's oldest daughter, started working in the family business as a teenager. More than four decades ago, Jenny and her sister Laura helped plant the family's first vineyard in Lake County California. By the time she graduated law school in 1982, Jenny took on a fulltime role with her father to assist with marketing, sales and communications for his new winery venture, Kendall-Jackson. She traveled extensively to make initial presentations to help establish the new and, at the time, little-known Kendall-Jackson wines. Since then, Jenny's passion for wines has only increased.

Jenny is co-proprietor of Jackson Family Wines and her husband, Don Hartford, is Vice Chairman. Jenny and Don are also the founders of Hartford Family Winery. Their daughter Hailey and son MacLean are third generation family members at Jackson Family Wines.

LAURA JACKSON GIRON

Laura Jackson Giron, Jess Jackson’s second daughter, was Kendall-Jackson’s first employee, working out of the winery’s office in the family’s basement in the early 1980s. She was known as a “Jackson of all trades,” working in accounting, hospitality, marketing and sales. She found her true passion while helping to plant the family’s first vineyard in Lake County California with her sister, Jenny.

Laura is co-proprietor of Jackson Family Wines. She owns and farms over 160 acres of Russian River Valley Pinot Noir and Chardonnay and is an ambassador for all of the family’s wineries.

KATIE JACKSON

Katie Jackson is the Senior Vice President of Corporate Social Responsibility for Jackson Family Wines, a position that is equal parts sustainability and advocacy. Building on the significant progress of the company’s first sustainability goals Katie launched in 2015, she recently spearheaded the company’s Rooted for Good: Roadmap to 2030, an ambitious 10-year sustainability and climate action plan with goals and initiatives designed to lead climate solutions, create positive social impact, and support the Jackson family’s long-term vision for a sustainable future. Under Katie’s leadership, Jackson Family Wines has emerged as an early adopter of strategies to become climate positive and scale regenerative farming, renewable energy, and smart water management in viticulture and winemaking.

In 2019, Katie led Jackson Family Wines as co-founder of International Wineries for Climate Action (IWCA) and continues to serve on the organization’s Board of Directors. As the Jackson family’s principal voice in promoting sustainable agriculture programs, Katie ensures the family’s vineyards throughout California and Oregon are certified sustainable through third-party organizations. Additionally, she co-manages the Government Relations and External Affairs Department working on critical regulatory relations issues. Katie also directs charitable donations for the company’s community outreach program. Katie and her husband, Shaun Kajiwarra (Director of Farming) live in Sonoma County with their three young children.

JULIA JACKSON

Julia Jackson, a second-generation proprietor of Jackson Family Wines, has dedicated her life to the environment on a global scale. Julia founded Grounded, a non-profit organization, to identify and accelerate the most impactful solutions to ensure a livable planet. Julia launched Grounded in 2018, convening scientists, policymakers, world leaders, investors and front-line organizations at its inaugural summit to elevate and amplify scalable climate solutions. Now, guided by Julia’s leadership, Grounded aims to make a tangible difference in our planet’s trajectory through connecting, convening, and catalyzing transformative global change.

Julia spent a decade working within the family’s business, focused on marketing, brand creation, and international sales, bringing this global perspective and expertise to her work in the environmental space. Her track record of working on transformative issues has earned awards and recognition including Wine Enthusiast’s Future 40 of 2022, North Bay Business Journal’s 2019 Top Women in Business, Culinary Institute of America Commencement Speakers 2019, UN Women Entrepreneur Speaker 2019, and honors from the Global Green organization. She is a graduate of Scripps College in California.

CHRISTOPHER JACKSON

Christopher Jackson, the son of Barbara Banke and the late Jess Jackson, grew up surrounded by wine and naturally cultivated a deep respect for the challenges and unique rewards of high-elevation winegrowing. Today, he is immersed in all aspects of the business, with particular focus on Stonestreet Estate Winery and the enduring quest to craft wines of distinct character and complexity.

Together with his wife, Ariel, Christopher takes the long view, preserving the and legacy of the family’s estate lands so they can be enjoyed for years to come. Chris holds an undergraduate degree from Santa Clara University and a Juris Doctorate from UC Berkeley School of Law. Chris and his family live in Sonoma County.

HAILEY JACKSON-HARTFORD MURRAY

Hailey Jackson-Hartford Murray’s passion for wine is born from the joy she experiences working alongside her family to craft something lasting and beautiful. As granddaughter of Jackson Family Wines founder Jess Jackson, and daughter of Jennifer Jackson-Hartford and Don Hartford, Hailey has grown to love the wine business from a young age and is particularly interested in its existence at the intersection of farming, community and family.

Hailey was only four years old when her parents founded Hartford Family Winery and grew up with an eight-acre Zinfandel vineyard in her backyard. After earning a degree in Biology at Scripps College, Hailey immersed herself in the family business. She became a Certified Specialist of Wine in 2015 and worked consecutive harvests at wineries in Bordeaux and Australia.

Hailey, together with her brother MacLean and her parents, is owner of Hartford Family Winery. Hailey looks to blend her personal affinities—interacting with people, a love of science and nature, and a fascination with the winemaking process—in her work at Hartford Family Winery. She lives with her husband, Max Murray, in Sonoma County.

MACLEAN HARTFORD

MacLean is the first-born grandson of Jess Jackson, the late founder of Jackson Family Wines. His parents, Don Hartford and Jenny Jackson Hartford, established Hartford Family Winery three years before he was born, and his childhood home was surrounded by century-old Zinfandel vines. He grew up attuned to the seasonal changes of the vineyards, the intricacies of the wine industry, and the excitement of harvest. MacLean has worked harvests at wineries in Bordeaux and in Australia.

MacLean completed his undergraduate studies at Brown University in Providence, Rhode Island. Together with his sister Hailey and his parents, MacLean is an owner of Hartford Family Winery.

ROOTED FOR GOOD: ROADMAP to 2030

Launched in August 2021, **Rooted for Good: Roadmap to 2030** is the most ambitious sustainability and environmental stewardship initiative in Jackson Family Wines’ 40-year history. This 10-year plan outlines the company’s long-term goals to become climate positive, implement smart water management, adopt regenerative farming practices and champion social responsibility and diversity, equity, and inclusion (DEI), while demonstrating a bold commitment to lead the way towards a more sustainable future. This is our decade of action to advance innovative solutions, create positive impact, and continue to build on all the good we do as a global wine company. Our plan focuses on four key areas:

- Social Responsibility & DEI:** Build a workplace where diversity, equity, and inclusion thrive, while empowering our employees to foster more resilient communities.
- Climate Action & Greenhouse Gas Emissions:** Cut our carbon footprint in half by 2030 & become climate positive by 2050, across Scopes 1-3 without purchasing offsets.
- Land Conservation and Farming:** Transition 100% of our estate vineyards to regenerative farming by 2030.
- Water Management:** Reinforce our commitment to water conservation and water quality improvement by enhancing our local watersheds.

COMMITMENT TO BE CLIMATE POSITIVE BY 2050

Since 2015, we have reduced our absolute greenhouse gas emissions by 17.5%, which is the equivalent of taking 4,173 cars off the road every year. But, our work is not done. We have set an ambitious goal of cutting our carbon footprint in half by 2030 and become climate positive by 2050, without purchasing offsets. We can’t buy our way out of this, so we plan to re-invest in more renewable energy sources.

With more than 23,000 solar panels across California and Oregon, we are the wine industry’s leader in solar energy. We plan to invest in more solar energy in order to provide more than 50% of our annual winery operations electricity consumption from onsite renewable energy. We will also install a utility-scale wind turbine at our Monterey Winery that is estimated to offset 100% of the winery’s electricity consumption each year and provide additional generation capacity. Finally, we are working with various tractor and car manufacturers on new zero emission technologies so we can transition most of our fleet of cars, trucks, tractors, and other vehicles, towards non-emitting fuel sources.

MAKING EVERY DROP COUNT

For decades, Jackson Family Wines has prioritized water management and made it a major part of our sustainability efforts. As a result of our water management practices, we have reduced our winery water use intensity by 43% since 2008 through implementing innovative techniques and deploying the latest technology in our wineries, using data analysis to improve water efficiency, and building a strong culture among our team that prioritizes water conservation efforts. Successful water conservation initiatives have included an innovative barre; washing system that allows us to reuse and recycle our water up to three times, building a rainwater capture system, and working with local water agencies to protect watershed habitats.

Smart water management will continue to be a priority and it’s a key focus area of our Rooted for Good plan. Over the next ten years, we will deploy innovative water management solutions in our vineyards and wineries to save and reuse water, protect wild habitats and watersheds, and recharge our natural aquifers.

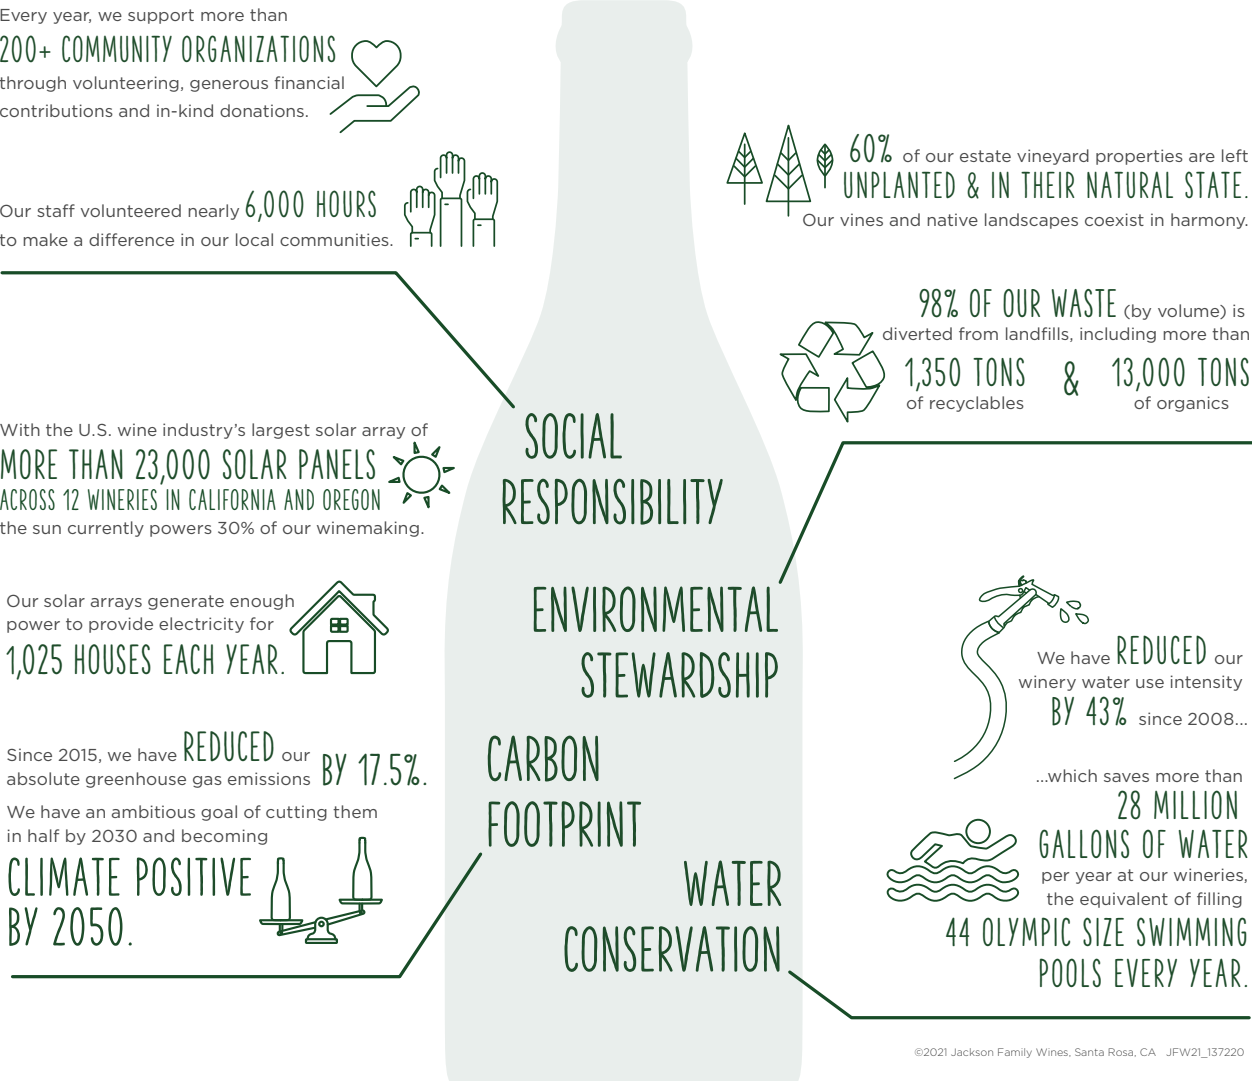

BY THE NUMBERS

From preserving natural habitats to building healthy soil, we focus on creating positive environment impacts that conserves water, generates renewable energy and leads the way towards a climate positive future.

All of our vineyards and wineries in the U.S are third-party CERTIFIED SUSTAINABLE.

We co-founded IWCA in 2019 and joined the United Nation's Race to Zero as a way to accelerate decarbonization efforts for the global wine industry.

©2021 Jackson Family Wines, Santa Rosa, CA JFW21_137220

TRANSITION TO REGENERATIVE FARMING

Jackson Family Wines has always been rooted in the land. We believe it’s our responsibility to maintain biodiversity, preserve native habitats, maintain clean waterways, and enhance soil health within the lands under our care. That is why 60% of our estate vineyard properties are left unplanted and in their natural habitat, enabling our vines and native landscapes to exist in harmony. In the next 10 years, we are committed to integrating regenerative farming practices across 100% of our estate vineyard properties. Regenerative farming is a set of practices that increases biodiversity, enriches soil health, improves watershed and enhances the ecosystem surrounding our vines. This is the best approach for maintaining a healthy ecosystem, while also advancing the quality of our wines, and we hope to serve as an example for how the wine industry can adopt and scale these practices.

SOCIAL RESPONSIBILITY + DEI

We believe in putting people first. That’s why social responsibility and DEI are at the heart of our Rooted for Good plan to build a workplace where diversity, equity, and inclusion thrive, while empowering our employees to foster more resilient communities.

At Jackson Family Wines, we respect, celebrate, and take pride in each other’s differences. Together we nurture a culture that embraces fairness, acceptance and belonging. We believe that diversity and inclusion drive our best innovation, enrich our employees and connect us to our customers and global community. We aspire to evolve in our commitment for a better future and one that is rooted for good.

We also understand the meaning of being good neighbors, so we’ve implemented a number of programs to support our local communities through donations, volunteer work, and more. Each year, we contribute thousands of hours of volunteer time, financial support, and in-kind donations to more than 200+ nonprofit organizations throughout the communities in which we live and do business. Key focus areas include environmental causes, environment, education, literacy, food banks, farm worker housing and shelter programs.

INTERNATIONAL WINERIES FOR CLIMATE ACTION (IWCA)

We are proud of our efforts to bring the global wine community together through co-founding International Wineries for Climate Action with Familia Torres of Spain in 2019. The mission of this organization is to galvanize the wine industry around the importance of reducing our carbon footprint and help mitigate the effects of climate change. These efforts have already made an impact, including IWCA being the first representative of the wine and agricultural industries to be accepted as a member of the United Nations Race to Zero Campaign.

CERTIFICATIONS & AWARDS

Changing the status quo within the global wine industry to address climate change requires leadership and collaboration. We are proud of the partnerships and alliances we’ve built over the past four decades to develop responsible, smart solutions to environmental stewardship, community building, and create social equality for future generations.

100% of our estate vineyards and wineries are third-party certified sustainable and we’ve been recognized around the globe for our climate action and social responsibility efforts.

HILLSIDES, RIDGES, BENCHES & SLOPES

Inspired by the long-held tenet that superb wines can only come from serious terroir, we farm cooler climate vineyards on ridges and hillsides. Each of our wineries has a distinct fingerprint driven by the character of these sites; our winemakers employ their unique philosophies to translate this distinction in the bottle. Artisan winemaking is built to scale, underscoring a steadfast commitment to making exceptional wines.

Our collection of wineries span significant winegrowing regions across the globe:

ANAKOTA.COM

The story of Anakota begins deep in the heart of the Knights Valley AVA in rural Sonoma County. Located in an ancient volcanic zone, this pristine and relatively unknown place has unique and diverse soils and a climate perfectly suited to Bordeaux grapes.

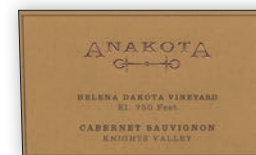

Anakota produces three distinctive Cabernet Sauvignons from the winery's estate vineyards; Helena Dakota, Helena Montana, and our new Knights Valley Cabernet.

The 12.4-acre Helena Dakota vineyard sits at 750 feet of elevation, below Mount St. Helena's two highest peaks. The site has reddish-brown gravel/loam soils intermingled with volcanic rock, and the Cabernet Sauvignon from Helena Dakota is rich with notes of blueberry and black cherry, with subtle fresh bay leaf.

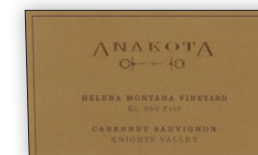

Located at 950 feet, the 60-acre Helena Montana vineyard is marked by rolling hills and steep benches that tilt up to 30 degrees. The firm, dense volcanic soil naturally produces low yields, and the Cabernet Sauvignon from Helena Montana is powerful and structured, with aromas of red and black currant, and fragrant, dried bouquet garni.

Anakota Knights Valley Cabernet Sauvignon is sourced entirely from estate owned vineyards, 700 feet to 900 feet above the valley floor. This terroir produces balanced wines of structure and complexity, with aromas of ripe black plum, and dark chocolate covered espresso bean.

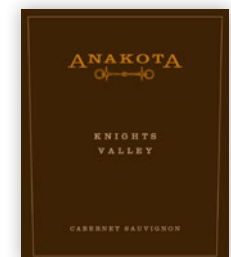

To ensure world-class quality, vigneron Pierre Seillan oversees all aspects of Anakota's planting, farming, harvesting and winemaking. Anakota gives Pierre the opportunity to create three classically-structured, multifaceted Cabernet Sauvignons from three superb vineyard sites in Knights Valley. He finds great freedom in producing pure expressions of Knights Valley Cabernet Sauvignon.

HELENA DAKOTA
ELEVATION: 750 feet
VITICULTURE: Deep roots, large vines, slope up to 15 degrees
SOILS: Red-brown silt loam
COMPOSITION: 100% Cabernet Sauvignon
AGING: 13 months, 70% new French oak

HELENA MONTANA
ELEVATION: 950 feet
VITICULTURE: Shallow roots, stressed vines, slope up to 30 degrees
SOILS: Yellow-white sandy, gravelly loam
COMPOSITION: 100% Cabernet Sauvignon
AGING: 13 months, 70% new French oak

KNIGHTS VALLEY
ELEVATION: 700 feet - 950 feet
SOILS: Yellow-white sandy and gravelly loam, and red-brown loam
COMPOSITION: 97% Cabernet Sauvignon, 3% Petit Verdot
AGING: 12 months, 20% new French oak

ARROWOODVINEYARDS.COM

Arrowood is Sonoma County’s Cabernet Sauvignon specialist, crafting Bordeaux-inspired blends from Sonoma’s most distinguished vineyards for over thirty years. In keeping with the vision of our legendary founder and Sonoma County native, Richard Arrowood, we continue to seek out the most distinctive sites for each variety’s expression within Sonoma County, even when that means driving an hour from our Glen Ellen winery—over dirt roads and dry creek beds—to remote mountain vineyards.

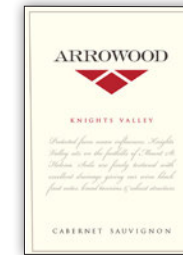

Our experience has allowed us to identify three AVAs within Sonoma County where Cabernet Sauvignon takes on its most powerful, terroir-driven expressions: Knights Valley, Alexander Valley, and Sonoma Valley.

Knights Valley: Tucked into the foothills of Mt. St. Helena in the northeast corner of Sonoma County, this region is often mistakenly considered part of Napa County. Knights Valley has one of the longest, most-even growing seasons in Sonoma County and fine-textured, gravel-laden soils that make it ideal for Cabernet cultivation. Knights Valley Cabernet has a concentrated dark fruit profile supported by a distinctive broad tannin structure and rich finish with notes of mocha and crushed stone. Arrowood has been sourcing Cabernet from Knights Valley since 2008.

Alexander Valley: One of the most diverse and difficult-to-categorize AVAs within Sonoma County, Alexander Valley produces elegant Cabernets characterized by blue fruit, and herbal and black tea aromatics.

Sonoma Valley: The home of our estate and tasting room, Sonoma Valley’s best vineyards are planted to mountainsides, high above the fog-line. Cabernet from Sonoma Valley has notable red fruit character.

Winemaker and expert blender, Kristina Shideler, uses the distinctive qualities of AVA to craft the most complete and complex Cabernet blends possible, from the prized Réserve Spéciale to the delightful, by-the-glass Sonoma Estates. Kristina, who joined Arrowood in 2015, developed her passion for Bordeaux varietals, as well as her intimate understanding of Sonoma’s mountain Cabernet belt, during her time at Vérité and Stonestreet Estate.

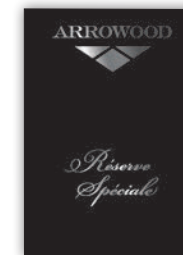

KNIGHTS VALLEY
CABERNET SAUVIGNON

SOURCING: Kellogg Vineyard, Knights Crown Vineyard (Knights Valley, Sonoma County)

WINEMAKING: Aged for 24 months in French oak barrels (30% new)

COMPOSITION: Cabernet Sauvignon, Merlot, Malbec

RÉSERVE SPÉCIALE
CABERNET SAUVIGNON

SOURCING: Top blocks from mountain vineyards in Sonoma Valley and Knights Valley (the wine is Sonoma Valley AVA with the exception of the 2014 vintage)

WINEMAKING: Top barrels of the vintage selected after 12 months, blended, then aged for an additional 20 months for a total of 32 months in French oak, 70% new (depends on year, but this is pretty average). Unfined and unfiltered

COMPOSITION: 100% Cabernet Sauvignon

BENVOLIO®

ITALIA

LOCATION

FRIULI, ITALY

WINEMAKER

FLAVIO COLUSSI

Benvolio means “well-wisher” in Italian, which is the sentiment that we hope to share with each bottle of wine we produce. It is our belief is that there is no place on Earth that cherishes the inseparable relationship between wine, food & joy like Italy, so our winemakers craft wines that pair perfectly with everyday celebrations!

The Pinot Grigio and Prosecco are from the Friuli region in the northeastern corner of Italy, an area known worldwide for its white wines. The vineyards benefit from a complex combination of microclimates, with warm air coming from the Adriatic Sea during the days, and cool night breezes drifting down from the snow-covered Alps. These are ideal conditions for grapes to mature slowly to perfect ripeness, providing full flavors and rich texture while retaining balanced acidity. The soil is predominantly gravel and sand, which stresses the vines and allows for superior drainage.

Benvolio Pinot Grigio is classic Friuli in style, with delicate nuances of wildflowers, rose water and lychee on the nose. The palate follows with flavors of apple and pear. It is dry, crisp and full-bodied with refreshing acidity and a clean finish.

Benvolio Prosecco is an excellent expression of both the variety and the Friuli terroir. This wine is a sharp golden straw color with bubbles that are finely textured and persistent. The nose shows fresh citrus with slight hints of honey and fresh flowers. Vibrant on the palate, the crisp acidity acts as a counterpoint to the flavors of ripe citrus, fresh peaches, lemon, green apples and grapefruit. The finish is light, refreshing, and crisp.

PINOT GRIGIO

D.O.C. FRIULI: 100% Pinot Grigio

WINEMAKING: Slow cold fermentation in 100% stainless steel. Lightly filtered and fined to preserve aromatics and flavors

VINES AND SOILS: Gravel and sand

PROSECCO

D.O.C. PROSECCO: 100% Glera

WINEMAKING: First fermentation in Stainless steel. Lightly filtered and fined to preserve aromatics and flavors. Cold maceration, followed by second fermentation Charmat method

VINES AND SOILS: Gravel and sand

BOOTLEGWINEWORKS.COM

At Bootleg we pay tribute to the devotion and daring that inspired our forefathers: the winegrowing rogues, who smuggled vine cuttings from renowned French vineyards and replanted them in California to elevate American wine to world-class status.

In their spirit, we embrace “unconstrained winemaking,” awarding our winemaker, Gabe Valenzuela, the freedom to create the ultimate expression of each vintage—outside the bounds of a given varietal, appellation, or winemaking tradition. Without rules or expectations comes the opportunity to redefine the game.

Though the recipe may change from year to year, Bootleg’s exuberant, bold and complex blends challenge convention while remaining anchored in celebrated vineyards throughout Napa and Sonoma.

As Bootleg winemaker, Gabe listens to each lot of grapes and adjusts all facets of the winemaking process to bring out each component and its best expression to the blend. He crafts wines that are complex, enjoyable and not overpowered by any single note.

We launched our original Napa Red Blend with the 2013 vintage, followed up in 2014 with Prequel, a Rhône-inspired blend from Sonoma County.

Each of our labels feature an independent artist’s rendering of a vignette from our origin story.

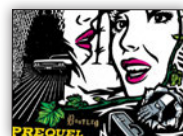

BOOTLEG ORIGINAL RED BLEND

SOURCING: *Napa County*

Brewer - Clifton STA. RITA HILLS

At Brewer-Clifton, we believe that the geographic, geologic and climatic uniqueness of the Sta. Rita Hills appellation provide an ideal place to grow Chardonnay and Pinot Noir of intensity, complexity and specificity. Our mission and indeed our passion is to present wines that convey the characteristics inherent to each of our vineyard sites, with uncompromising quality.

Winemaker Greg Brewer's primary focus in the winery is the pursuit of refinement. He is engaged in every aspect of his work, from vineyard to market, and every level of the process is given equal priority. To him, a mindful approach where strategic and efficient actions are taken to incorporate the needs of the entire ecosystem creates a confident and calming environment, a space where everyone and everything is appreciated. The goal is the beauty and synchronicity of the system. The result is wine that is honest and driven, expressive of the place and the team who collectively steward them.

Greg Brewer received the honor of being named Winemaker of the Year 2020 by Wine Enthusiast magazine. "While this tremendous acknowledgment is associated with my name," says Greg, "it is ultimately a recognition of the Sta. Rita Hills appellation and colleagues within that I will loyally serve, nurture and promote for the rest of my life. Fueled by this monumental accolade we will collectively push the limits even further to best demonstrate our voice of place around the world."

CAMBRIAWINES.COM

Cambria Estate sits on storied land. Originally planted in 1971, and brought into the Jackson family by Jess Jackson and his wife Barbara Banke in 1986, Cambria's land has been a premier producer of cool climate wines for more than 45 years. Situated on one of the only transverse valleys on the West Coast, Cambria's vineyards are planted on the Santa Maria Bench where cool, sea air funnels in unobstructed from the nearby Pacific Ocean, blanketing the vines in maritime fog. With one of the longest growing seasons in California, the unique climate at the Estate produces "refrigerated sunshine" that develops concentrated flavors in the grapes making Cambria ideally situated for cultivating Chardonnay and Pinot Noir varietals.

Every Cambria wine produced is a single vineyard offering. The two primary vineyards on the Estate are Julia's and Katherine's. Named for Jess and Barbara's daughters, these vineyards are marked by depth of character, and a history of acclaim - most recently when Cambria was named one of the Top 100 Wineries of 2020 by Wine & Spirits. Each vineyard holds within it ancient soils that include 14 different soil types, while each block contributes different flavor and structural qualities to the wines. Additionally, the 17 clonal varietals on the property are a study in diversity. With a commitment to craftsmanship and artistry, winemaker Jill Russell and the tremendous winemaking and vineyard teams bring to life the legacy of this land through each wine.

CORE WINES

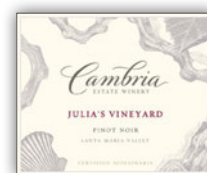

**KATHERINE'S VINEYARD
CHARDONNAY**

COMPOSITION: 100% Chardonnay

WINEMAKING: Aged in 100% French Oak, 20% new. 20-40% stainless steel fermented with no malolactic

VINES AND SOILS: Ancient alluvial bench soils, showcasing the character of old vines planted in the early 1970s

**JULIA'S VINEYARD
PINOT NOIR**

COMPOSITION: 100% Pinot Noir

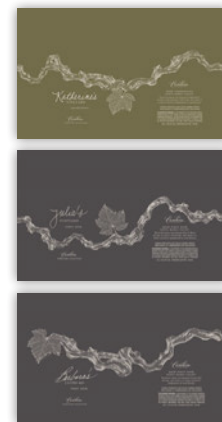

WINEMAKING: Aged in 100% French Oak, 30% new

VINES AND SOILS: Ancient alluvial bench soils, showcasing the character of old vines planted in the early 1970s

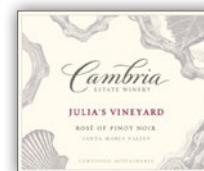

SIGNATURE COLLECTION

KATHERINE'S VINEYARD SIGNATURE COLLECTION CHARDONNAY
JULIA'S VINEYARD SIGNATURE COLLECTION PINOT NOIR
BARBARA'S SIGNATURE COLLECTION CLONE 667

These wines are a selection of the best blocks and barrels of each vintage from Katherine's and Julia's Vineyards on the Estate, with Barbara's Signature Collection Pinot exclusively featuring Clone 667. Winemaker Jill Russell chooses her favorite 15 barrel lots to craft the ultimate expression of each vineyard site in these small quantity, premier offerings.

ADDITIONAL VARIETAL OFFERINGS

**JULIA'S VINEYARD
ROSÉ OF PINOT NOIR**

FERMENTATION:
100% stainless steel

CLONES: 2A and 115

**TEPUSQUET VINEYARD
VIOGNIER**

WINEMAKING: 4 months in 100% French oak, with no new oak

VINES AND SOILS: Alluvial bench soils; planted in 1994

**TEPUSQUET VINEYARD
SYRAH**

WINEMAKING: 13 months in 100% French oak, 20% new

VINES AND SOILS: Alluvial bench soils; planted in 1994

CALADANWINES.COM

What began as a singular Cabernet Franc wine has grown into a philosophy. With our Cabernet Franc and Proprietary Red Wine, winemaker Christopher Carpenter explores the more delicate, nuanced side of Napa Valley's powerful mountain terroir. By showcasing the graceful complexity of distinguished old-world varieties other than Cabernet Sauvignon, Caladan opens an entirely new perspective on Napa Valley's famed mountain terroir.

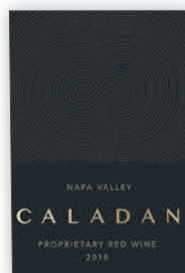

These charismatic bottlings honor the essence of four Napa Valley mountain appellations: Spring Mountain District, Howell Mountain, Diamond Mountain District, and Mount Veeder.

The Yverdon Vineyard on Spring Mountain typically provides the foundation for both our Cabernet Franc and Proprietary Red Wine. Stretching skyward up to 2,000 feet above sea level, this is the coolest of our sites, with a geology dominated by sedimentary soils. These features produce the vineyard's signature floral and red fruit aromas and fine tannin structure that make these Napa Valley mountain wines so expressive.

CABERNET FRANC

COMPOSITION: Cabernet Franc and Merlot
AGING: 20-22 months; 60-70% new French oak
SOILS: Primarily of volcanic origin

PROPRIETARY RED WINE

COMPOSITION: Merlot, Cabernet Franc, Cabernet Sauvignon, Malbec, Petit Verdot
AGING: 22 months, 76% new French oak
SOILS: Primarily of volcanic origin

CAPENSISWINES.COM

Capensis is a family of three wines dedicated exclusively to Chardonnay. The name Capensis is taken from the Latin word meaning “from the Cape,” and pays homage to their home in South Africa, one of the oldest winemaking regions in the world. The ancient soils, dramatic landscapes and historic vineyards of Stellenbosch, Overberg and Robertson are the foundation for Capensis, which honors the greatness of South Africa.

Winemaker Graham Weerts has carefully selected the finest Chardonnay vineyards within the Western Cape to craft these unique expressions of Chardonnay from South Africa, each showing individuality of place. The Capensis Western Cape Chardonnay is an expression of the best that the Western Cape has to offer and highlights a core set of vineyards that Graham has hand selected for this project. Silene, whose intent is to highlight the nuances and profound flavor profile that can be found in the Stellenbosch region. And Fijnbosch, crafted only in the best vintages, is the pinnacle of purity from a singular site and is sourced exclusively from the “Flowers” block on our estate Fijnbosch Vineyard – the highest planted vineyard block in the Stellenbosch region.

SAM TEAKLE

CAPTUREWINES.COM

Captûre brings classic Bordeaux-style winemaking to the rugged Mayacamas Mountains in Northern California's wine country. This volcanic range runs 52 miles southeast from Mendocino County, shearing through Lake, Sonoma and Napa Counties on its way. Mayacamas Mountains are rich in winegrowing history; winemaking dating back to the 1860s.

Established in 2008, Captûre is inspired by California's frontier spirit while staying true to time-honored winemaking traditions. Its origins are rooted in the far reaches of the Mayacamas Mountains. Captûre seeks out remote vineyards within Pine Mountain-Cloverdale Peak and Alexander Valley appellations at the untamed edges of mainstream winegrowing, where wildlife is seen more than human visitors. With elevations up to 2,866 feet, conditions here are tough for the vines. Thin topsoil forces the roots to burrow down deep into the rock to search for water and nutrients, producing wines rich in character, complexity and elegance.

Winemaker Sam Teakle is tasked with crafting the wines, finding the top vineyard sources and developing the Pine Mountain estate vineyard. For Captûre, Sam is creating a style that is true to himself and true to the brand, showcasing mountain Sauvignon Blanc and Cabernet Sauvignon from the Mayacamas Range.

CHRISTOPHER CARPENTER

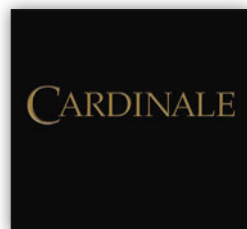

CARDINALE.COM

Cardinale, located in world-renowned Napa Valley, crafts a single Cabernet Sauvignon from each vintage. The wine is a limited-production blend from Napa Valley's most celebrated mountain appellations.

Each of our esteemed mountain vineyards creates a beautiful note unique to their location, but the composition they create together results in a remarkable symphony of texture and complexity.

Like a master composer, Winemaker Christopher Carpenter layers the intricate notes into one resounding wine. Diamond Mountain District contributes dark cherry, bittersweet chocolate and great mid-palate body. Howell Mountain delivers dark fruit flavors, earthiness and minerality. Spring Mountain District adds red fruit characteristics, satiny tannins and superb aging potential. And Mount Veeder bestows notes of blue fruit and minerality, along with the wine's structure.

Mountain terroir is essential to the character of Cardinale wine. While the rocky soils, steep aspects and exposed conditions are among the most challenging in California, they also produce the most structured, masculine and complex wines.

KRIS KATO

CARMELROAD.COM

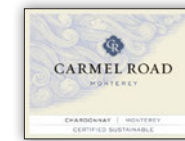

Monterey's Salinas Valley is a hauntingly beautiful landscape located midway between Los Angeles and San Francisco. Carmel Road was founded in 1999 to produce compelling Pinot Noir and Chardonnay from the Panorama Vineyard and other estate sites along the eastern and western foothills of the Salinas Valley.

The climate here is driven by the Blue Grand Canyon®, a massive geological formation beneath the waters of Monterey Bay that is 60 miles long and more than 10,000 feet deep. Its cold waters create the fog and brisk winds that sweep the Salinas Valley each day, creating conditions that are ideal for Burgundian varieties.

The 415-acre Panorama Vineyard, the primary fruit source for Carmel Road, is located on a bench in the Arroyo Seco AVA. It is the largest, single, high-density planting of Pinot Noir in the United States. The competition for water and nutrients within each block forces the vines to put more of their energy into ripening the fruit. This results in wines with heightened aromatics, incredible concentration and outstanding complexity.

Carmel Road's winemaker is Kris Kato who attended Oregon State University's fermentation science program. Working at wineries both big and small along the Central Coast, for over 10 years, Kris' experience has prepared him for his role at Carmel Road where he focuses on Chardonnay and Pinot Noir.

VIGNERON
PIERRE SEILLAN
NICOLAS SEILLAN

CHATEAU-LASSEGUE.COM

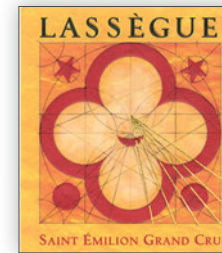

Nestled on the Cote de Saint-Émilion, Château Lassègue exemplifies remarkable winemaking passion and an unbridled quest to craft world class wines. With its striking 18th century Château, perennially sundrenched vineyards and diverse soils, Château Lassègue sits in a unique position of honoring its heritage while also moving into a new era of winemaking tradition. Guided by renowned Vigneron Pierre Seillan, Château Lassègue combines the best of old world and new world to produce extraordinary wines.

First built in 1738, this historic château was purchased in 2003 by Jess Jackson and Barbara Banke who, along with Pierre and Monique Seillan, set out to make it one of the premier producers in Saint-Émilion. At Château Lassègue, Pierre, a native of Gascony, applies his viticultural philosophy of dividing larger vineyards into smaller micro-crus based on variations in soil type and topography. The vineyards are planted to Merlot (60%), Cabernet Franc (30%) and Cabernet Sauvignon (10%), and the vines are 50 to 60 years old.

Originally used by vineyard workers centuries ago to keep track of time, the sundials, which adorn the façade of Château Lassègue and serve as the emblem of the estate, embody the importance of the sun to all aspects of the château. Their image represents the core of the winery's philosophy: wines improve over time, quality comes with patience, and long-term commitment to the land is an obligation.

Château Lassègue is crafted from the opulent and elegant hillside vines planted in limestone soils. Les Cadrans de Lassègue, the estate's second label, is named after the iconic sundials that adorn the château and features a slightly lighter body than Lassègue.

Copain Wines™

Copain, meaning 'friend' or 'buddy' in French, embodies our philosophy that wine enhances the good things in life, and is an experience best shared with friends and family. Perched on a hillside overlooking the bucolic Russian River Valley, Copain specializes in vineyard designate Pinot Noir, Chardonnay and Syrah.

Founded in 1999, Copain has built a reputation of producing food friendly, balanced and expressive wines in the 'light-and-bright' style. Sourced from sustainable vineyard sites in Anderson Valley, Mendocino County and Monterey County, the portfolio consists of three distinct collections—the Tous Ensemble wines, the Les Voisins wines, and the single vineyard designate wines.

Our style has long been inspired by the restrained and elegant wines of France's Burgundy and Rhône Valley. The grapes are picked early to impart vibrant acidity and the wine undergoes minimum manipulation in the cellar. Coaxing lively, energetic wines with bright, fresh flavors has become Copain's signature.

DAKELWINES.COM

DAKÉL's Maricerro Vineyard Pinot Noir and Chardonnay are extraordinary expressions of Chilean Single Vineyard terroir. The Maricerro Vineyard sits on a coastal ridge at almost 1,000 feet in elevation sandwiched between the cold Pacific Ocean and nearby frigid Andean Mountain tops. The vineyard's quartz laced granitic soil and cool climate drive a bright and unique crystalline signature in both wines.

The wines are the result of three vintner colleagues' decades-long search for a pure single vineyard expression of Chilean Pinot Noir and Chardonnay.

In the early 1990's, DAKÉL Winemaker Andrés Sánchez, and vintner friends and colleagues, Randy Ullom and Don Hartford, began searching in the direction of the Antarctic on the Coastal Ridges of Chile in hopes of finding an extraordinary site for producing world-class Pinot and Chardonnay. After several false hopes and dead-ends, Maricerro was planted in the Itata region. The first vines planted at Maricerro in 2007 and are just beginning to tell the story of the remarkable terroir.

Brewer - Clifton
DIATOM
EX POST FACTO

BY GREG BREWER

Diatom specializes in only one variety—Chardonnay—and is motivated by the pursuit of subtraction and refinement. Producing wines sourced from Santa Barbara County, Winemaker Greg Brewer describes his work with Diatom as “...the polishing of a grain of rice until one has reached its ultimate inner core.”

Fermented at low temperatures in small stainless-steel tanks, coupled with inhibited malolactic fermentation and short hose transportation, Diatom pays homage to the stark maritime influenced landscape of its provenance. Greg Brewer strives to imbue recognition of place with as little disturbance, distraction or interference as possible. The resulting wines have a sense of transparency and a purity of intent and purpose.

Greg Brewer received the honor of being named Winemaker of the Year 2020 by Wine Enthusiast magazine. “While this tremendous acknowledgment is associated with my name,” says Greg, “it is ultimately a recognition of the Sta. Rita Hills appellation and colleagues within that I will loyally serve, nurture and promote for the rest of my life. Fueled by this monumental accolade we will collectively push the limits even further to best demonstrate our voice of place around the world.”

*Like a pent-up wave just about to break,
rich and luxurious fruit harnessed in
by bracing acidity and precision.
Impeccably clean, focused and transportive
to the maritime landscape from which the wine emerges.*

Diatom Santa Barbara County Chardonnay is sourced from beautifully established twenty-five-year vines alongside a brand new cutting edge vineyard development in the Los Alamos Valley. Twenty small and diverse blocks planted to six different clones is an incredible template for the unique style of this Chardonnay.

EDMEADES

YEAR FOUNDED

1972

LOCATION

MENDOCINO COUNTY,
CALIFORNIA

WINEMAKER

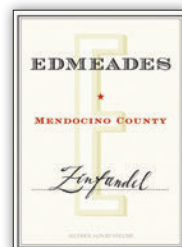

DAVID READY, JR.

EDMEADES.COM

Edmeades is the authentic taste of one of California's last viticultural frontiers—Mendocino County. The winery's history began in 1963 when Dr. Donald Edmeades, a cardiologist from Pasadena, planted 24 acres of vines, becoming the first modern-day grape grower in this cool, coastal Mendocino region. He founded his winery and launched the Edmeades brand in 1972. The Jackson family purchased the winery and its vineyards in 1988.

Using grapes grown in Mendocino County's rugged coastal mountains, Edmeades crafts Zinfandels with distinctive character and personality. The winery prefers a delicate touch in the cellar, allowing each vineyard to be fully expressed in the wines it makes. The simplicity of the winemaking allows the soil and climate of each site, plus the essential character of the variety, to shine through in every wine.

Edmeades is best known for its limited-edition, single-vineyard Zinfandels from some of the oldest and highest sites in Mendocino County, including Perli (planted in the late 1800s), Piffero (planted in 1930 using blasting powder to clear the side of a mountain), Shamrock (2,800 feet above the Pacific Ocean), and Gianoli (planted at 1,900 feet in the 1880s).

EX POST FACTO

BY GREG BREWER

EX POST FACTO

A Syrah project from winemaker Greg Brewer, Ex Post Facto breaks away from Greg's Burgundian roots at Brewer-Clifton to explore a Rhône style wine from Santa Barbara County. The origin of the name is derived from the Ex Post Facto law, defined as the following: "A law that makes illegal an act that was legal when committed." In layman's terms, Ex Post Facto is the changing of something after the fact and encapsulates Greg's desire to push beyond the Brewer-Clifton paradigm to work with new vineyards and a new wine varietal. Ex Post Facto showcases fruit from one of the coldest climates in California - Santa Barbara County. With sixty days spent on the skins and stems, this Syrah is aged in 100% neutral oak with influences of peppercorn, black cherry, and raspberry characteristics.

Greg Brewer received the honor of being named Winemaker of the Year 2020 by Wine Enthusiast magazine. "While this tremendous acknowledgment is associated with my name," says Greg, "it is ultimately a recognition of the Sta. Rita Hills appellation and colleagues within that I will loyally serve, nurture and promote for the rest of my life. Fueled by this monumental accolade we will collectively push the limits even further to best demonstrate our voice of place around the world."

*Out of the aftermath

SUSAN LUEKER

FORTRESSWINERY.COM

In the far reaches of California's North Coast, behind unassuming gates and miles of dirt roads, lay remote vineyards nestled in steep hillsides and perched on secluded mountaintops. Far from the tranquility of the valley floor, vines are bathed in concentrated sunlight and battered with fierce winds. Exposure to these elements, combined with well-draining soils, strains the vines and naturally limits yields. In the end, the results are tight clusters and small berries bursting with concentrated juice. There are many inherent hardships of farming these isolated vineyards; however, the rewards are evident in each vintage.

In the winery, minimalist techniques allow the signature flavors of the North Coast to shine through. Merlot and Malbec are blended with a core of Cabernet Sauvignon for greater depth and complexity in the classic Bordeaux style. The final blend is always smooth and balanced, conveying a bold expression of the North Coast.

With a winemaking legacy dating to 1886, Freemark Abbey is one of Napa Valley’s original Cabernet Houses. The winery’s rich heritage and pedigreed approach to winemaking in Rutherford cement Freemark Abbey as an enduring beacon of quality and tradition that spans multiple generations.

The origin of Freemark Abbey dates back to 1881, when Josephine and John Tychson purchased 147 acres in the Napa Valley. Eight decades later, Freemark Abbey helped launch the modern era of California wine.

In the 1960s and early 1970s, the winery’s Bosché Vineyard Cabernet Sauvignon, known as Cabernet Bosché, was considered one of the most iconic bottlings in the United States and the Chardonnay proved that California could produce stunning world-class wines from this noble variety. Freemark Abbey was one of 12 American wineries chosen to compete in the historic Judgment of Paris tasting in 1976. It was the only producer with entries in both the Cabernet and the Chardonnay flights.

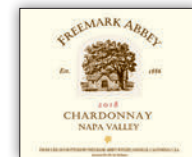

Today, thanks to Ted Edward’s efforts, the portfolio is comprised of an impressive collection. The winery also showcases single vineyard designate wines from the prestigious Rutherford AVA, including the iconic Bosché and Sycamore Vineyard Cabernet Sauvignons.

Freemark Abbey reopened in 2016, during its 130th anniversary year, after undergoing an innovative estate renovation. The renovation has preserved the century-old historic stone building while introducing modern updates, including a dedicated space for the winery’s unrivaled wine library, a rejuvenation of its original tasting room, and a new lounge for Freemark Abbey wine club members. Custom wine education and private tasting experiences are available for both intimate groups and larger gatherings in renewed spaces, including the Barrel Room and Bosché Room, which honor the estate’s history through their unique design.

GRANMORAINES.COM

Oregon wines with a signature style of elegance and restraint, Gran Moraine produces Chardonnay, Pinot Noir, and sparkling wines from the Willamette Valley. Our estate vineyards, Gran Moraine Vineyard and our Winery Estate Vineyard, perch on the oldest marine sedimentary-based soils in the Yamhill-Carlton sub-AVA of the northern Willamette Valley. Our wines showcase Winemaker Shane Moore's tireless attention to detail in both the vineyard and the winery, which translates to precision and elegance in the bottle.

Gran Moraine wines shine a light on the monologue of the Gran Moraine Vineyard, lifting its voice and vibrant energy through a signature style of elegance and restraint, with a fresh through-line of acidity. A style—in many ways antithetical to the natural tendencies of the Yamhill-Carlton sub-AVA—that has established the winery as not only a Pinot Noir, but a Chardonnay and sparkling wine leader in the Willamette Valley.

Our vineyard is nestled in the eastern foothills of Oregon's Coastal Range, on the wild western edge of the Yamhill-Carlton AVA, the range's peaks to the west and south buffer maritime winds and rain from the Pacific Ocean, creating a more temperate growing season distinct from neighboring vineyard sites. Planted in 2005-2006 to Pinot Noir and Chardonnay Dijon clones, the 194-acre vineyard perches in thin marine sedimentary soils, and diversity of block exposures and elevation offer a diverse palette for our farming and winemaking team.

HARTFORDWINES.COM

Hartford Family Winery is owned by Jenny and Don Hartford, their daughter Hailey Hartford Murray and son MacLean Hartford. It is in the heart of the Russian River Valley AVA, at the edge of the small Russian River Valley town of Forestville and about 15 miles from the cool Pacific Ocean.

The winery's focus is making high personality Single Vineyard Designated Pinot Noir, Chardonnay and Old Vine Zinfandel wines. Its single vineyard wines are small bottlings of typically less than four hundred cases each. The wines are sourced predominantly from estate owned, sustainably farmed vineyards and in a few cases from exceptional neighboring vineyards.

In recent vintages the family has made over 30 single vineyard wines from extraordinary sites in the Russian River Valley, West Sonoma Coast, Sonoma Coast, Green Valley of the Russian River Valley, Anderson Valley, Carneros, Santa Ynez, Sta. Rita Hills, Marin, and Eola-Amity Hills. The cool-climate single vineyards planted and used by the winery to make single vineyard wines were chosen for the vineyard's ability to express the unique character of each vineyard site.

In addition to the single vineyard wines, the family makes three Russian River Valley AVA wines that are the result of blending wines of several vineyards: these wines are a Russian River Valley Pinot Noir, a Russian River Valley Chardonnay and a Russian River Valley Old Vine Zinfandel. The family makes the three Russian River Valley wines by choosing old-vine and heirloom clones and grapes from several of the family's estate vineyards and friends' and neighbors' vineyards with the intent to produce an authentic expression of Russian River Valley terroir.

Jeff Stewart (Director of Winemaking) and Tiaan Lordan (Winemaker) form the winery's dynamic winemaking team. The team utilizes artisan winemaking techniques such as night harvesting, indigenous yeast fermentation, open-top and small barrel fermentations, cold soaks, 100% French Oak, batonnage, and avoids fining and filtration of most wines.

Without exception, Hartford Family Winery's wines are intense, thought provoking, and expressive of both variety and terroir. They have been served numerous times at the White House and are staples on many Reserve Wine lists around the World. They have been mentioned in annual Top Ten and Top One Hundred Wines of the Year compilations by publications such as the Wine Spectator, Wine Enthusiast, and Wine and Spirits Magazine.

HICKINBOTHAMWINES.COM

While part of the McLaren Vale Geographical Indication, Clarendon is a distinct subregion located in the very north, on the edge of the Adelaide foothills. Its elevation affords it cooler temperatures than in most of McLaren Vale, providing it with unique diurnal weather patterns that mirror those of the great winegrowing regions of the world.

First planted in 1971, the Hickinbotham Vineyard produces a range of highly distinctive and powerful red wines from terraced vine rows that trace the folding contours of the elevated, hillside setting. Winemakers Christopher Carpenter and Peter Fraser craft each vineyard parcel into a unique component and assemble them to represent the finest possible expression of each variety.

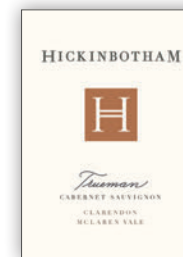

The prevailing climatic influences and old vines, along with ancient siltstone soils, all combine to produce a textural signature in the wines that is highly prized. This signature is one of smooth, rich tannin and mouth-filling ripeness and it runs through the whole vineyard and all varieties. The natural acidity delivers freshness, balances the inherent richness of the wines, propels great length of flavour, and underwrites their long cellaring potential. The flagship Cabernet Shiraz blend, The Peake, is the vineyard's ultimate expression of each harvest.

When Jess Jackson produced his first Chardonnay in 1982, his goal was simply to create a wine that people of all levels of expertise could enjoy. Over three decades later, the family-owned and operated Kendall-Jackson is one of the most trusted and celebrated wineries in the world. For more than 25 years, the winery's Vintner's Reserve Chardonnay has been the number one selling Chardonnay in the United States.

One aspect that distinguishes Kendall-Jackson's wines is vineyard sourcing. The majority of fruit sourced for Kendall-Jackson wines is grown on the 12,000 acres of estate vineyards owned by the Jackson family. Throughout the past three decades, the Jackson family has acquired vineyard land situated in the cool coastal mountains, hillsides, ridges and benches of California's Santa Barbara, Sonoma, Napa, Monterey, Mendocino and Lake Counties. This ensures that grapes are grown with specific care and low-yielding farming techniques to produce the highest quality fruit. All of our estate vineyards are certified sustainable by the CCSW (Certified California Sustainable Winegrowing) and SIP (Sustainability in Practice) programs.

Each year, under the direction of winemaster Randy Ullom and winemaker Mark Theis, Kendall-Jackson conducts the largest barrel fermentation of Chardonnay in the world. This labor-intensive process is used by all boutique wineries to create more texture and complexity in the wine. To guarantee a consistent source of high-quality oak for their barrels, the winery is in partnership with a stave mill in France and a cooperage in the United States.

From the Vintner's Reserve collection to the single-vineyard and other luxury-class bottlings, Kendall-Jackson's wines offer fruit-driven aromatics, strong varietal characteristics, remarkable balance and delicious flavors.

LACREMA.COM

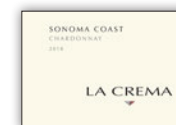

Our original name, La Crema Viñera, means “best of the vine,” setting the standard for all we do since 1979. For more than 40 years, our family-owned and operated winery has focused exclusively on cool-climate appellations, from our original home in the Russian River Valley, to Monterey and now the Willamette Valley. We’re continually exploring these very special regions—passionate in our belief that they make uniquely expressive and elegant wines. We select vineyards that fall within cool mesoclimates and possess well-drained soils, which naturally restricts yields and produces distinctive, balanced wines. Our grapes ripen slowly and see long hang time, allowing complex flavors and aromas and firm acid structure to develop. Our vineyard site selection and boutique winemaking techniques ensure the consistently distinct, naturally balanced wines we are committed to producing.

In the summer of 2016, La Crema settled into a new home, nestled within the storied Saralee’s Vineyard in the heart of the Russian River Valley. Here, we’ve created a premier destination for unparalleled wine education and culinary explorations.

Planted in 1988 by Saralee Kunde and her husband Richard, Saralee’s Vineyard was carefully tended by the couple and has a reputation for producing some of the finest grapes in California. The cool climate, varied terrain and diverse soils provide an ideal environment for a wide range of varietals, particularly Chardonnay and Pinot Noir. Built in the late 1800s, an historic building sits atop a knoll on the sprawling property, overlooking rolling vineyards. Originally a barn, the Kunde’s transformed the building into their family home, and now the story continues as the striking structure begins its third phase as a tasting room and winery destination for La Crema.

Revered by the community for her agricultural advocacy and contributions to local organizations, including strong support of Sonoma’s 4-H Center and Future Farmers of America, Saralee Kunde built a legacy that we are honored to carry on.

LA JOTA VINEYARD
W.S. KEYES VINEYARD

WINEMAKER

CHRISTOPHER CARPENTER

LAJOTAVINEYARDCO.COM

La Jota Vineyard Co. has deep roots in Napa Valley's winemaking history. It was W. S. Keyes who planted the first vines on Howell Mountain, back in 1888. Ten years later, and a mile down the road, fellow Howell Mountain pioneer Frederick Hess established the La Jota Vineyard-named after the property's location on the Mexican land grant Rancho La Jota-and built a stone winery that still stands today. Both men won medals for their wines at the Paris Exposition of 1900, which brought instant recognition to Howell Mountain as a world-class winegrowing region.

While growing grapes in the nutrient-lean, volcanic soils of these vineyards is a challenge, the rewards are undeniable. Highly concentrated flavors and muscular tannins slowly mature to perfection, while the cool winds, diurnal temperature swings and high altitude keep the grape acids impeccably balanced.

KRISTINA SHIDELER

LEGACYWINES.COM

Founded in 1990 by Jess Jackson, the Legacy label was first created to mark the finest cellar-worthy reds from his mountainous Stonestreet Estate. With the launch of a heritage clone Chardonnay in 2018 and acquisition of the historic Field Stone vineyard by the Jackson family, Legacy grew into something still greater—a standalone project that celebrates the past, present and future of Alexander Valley.

Legacy's Red Wine, Chardonnay and Petite Sirah are hand-selected from the appellation's soaring mountain estates, hidden heritage sites, and storied old vines. Crafted by winemaker Kristina Shideler, these wines capture the soul of Alexander Valley in each vintage. From canopy management to the final blend, winegrowing decisions put quality and longevity first. Enduring and profound, these wines are a legacy in the truest sense of the word.

CHRISTOPHER CARPENTER

LOKOYA.COM

Established in 1995, Lokoya is a collection of four distinct Cabernet Sauvignons from four of Napa Valley's most celebrated mountain appellations: Mount Veeder, Howell Mountain, Spring Mountain and Diamond Mountain. These limited-production wines are 100% Cabernet Sauvignon, fermented with native yeast, and bottled unfiltered and unfiltered, resulting in the purest expression of place.

Cabernet Sauvignon as lens, site as conveyor — the grape variety and winemaking for the four wines remain constant, allowing the vineyard sites to shine with the climate, soils and sunlight all fully expressed in the glass.

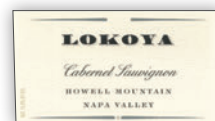

Given the high elevation of the sites, the vineyards demand constant attention. The deep understanding of the vineyard trajectory in each vintage comes from Winemaker Christopher Carpenter's years of expertise. Intervention is kept to a minimum both in the vineyard and in the cellar, leaving the fruit to express itself as naturally and eloquently as possible.

At Maggy Hawk, our purpose is to craft exceptional Pinot Noir and Chardonnay. We take inspiration from the beauty of our Anderson Valley estate vineyards while continuing to seek out cool-climate sites. We focus on the purity of the grape, and the natural elegance found within.

The northern half of Anderson Valley – what locals call The Deep End – is typically shrouded in a thick fog that rolls in from the nearby Mendocino coastline. Here, our Maggy Hawk Estate Vineyard, family owned since 1994, is tucked away among the valley’s rolling hillsides, surrounded by redwoods. The diversity of our vineyards gives our winemaking team a wealth of characteristics to layer into the Maggy Hawk wines. Each has its own style and story to tell. Together, they offer a unique view of this remote region.

MARCIA TORRES
FORNO

MATANZASCREEK.COM

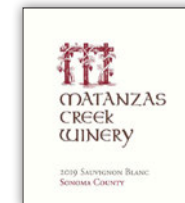

With four decades of winemaking heritage, Matanzas Creek's expertise in Sauvignon Blanc dates back to the beginning, when founding winemaker Merry Edwards developed her signature style. The winery has a rich history of industry leadership, including launching the careers of many renowned California winemakers, producing pioneering research on clonal significance, and spearheading the founding of the Bennett Valley AVA. Since its start in 1977, Matanzas Creek has left an indelible mark on the California wine industry.

Today, the aromatic expertise of winemaker Marcia Torres Forno, honed over 20 years of experience in Chile, Napa, and Sonoma, shines through in each bottle. Achieving the signature delicacy of Matanzas Creek's Sauvignon Blancs requires strict attention to detail. Timing of the pick in the vineyards is determined by grape hue signaling precursor aromas of the fruit, which are then cultivated in the cellar through careful selection of fermentation vessel types. These exacting winemaking practices also shape Matanzas Creek's elegant Chardonnays and Merlots.

Matanzas Creek wines are sourced from the optimal growing sites for each offering. The wines are always crafted to express a profound sense of place, and delicately woven into the portfolio with a common thread of simple elegance.

MTBRAVEWINES.COM

Mt. Brave produces staggeringly intense and complex wines from its high-altitude estate vineyard in the Mt. Veeder AVA, located in the Mayacamas Mountains. First planted to grapes in the 1860s, this wild and isolated winegrowing region features panoramic views, sparse soils, steep terrain and some of the lowest yields in the Napa Valley. Despite being the largest AVA in Napa Valley, Mt. Veeder produces less than 2% of all its wines.

For more than 150 years, determined winegrowers have farmed this mountain landscape, where many thought the conditions too severe, too extreme and too lacking in promise. Nutrients and minerals are scant, resulting in tiny berries with intense flavor and ripe tannins. The vineyard is famous for its rugged terrain, where virtually all work in the vineyard must be done by hand. At harvest, small boxes must be hand-carried up and down the steep slopes to protect both vines and vineyard workers.

MURPHYGOODEWINERY.COM

No winery captures the essence of the Sonoma County lifestyle better than Murphy-Goode. Founded in 1985 by friends Tim Murphy, Dale Goode and David Ready, the winery has been embraced by both serious and casual wine drinkers for its exceptional wines.

Murphy-Goode's home base is the Alexander Valley, a rural agricultural haven in northeastern Sonoma County that is particularly adept at producing great Chardonnay, Sauvignon Blanc, Zinfandel, Merlot, Pinot Noir and Cabernet Sauvignon, all specialties of Murphy-Goode.

When the winery was established in 1985, founders Tim Murphy and Dale Goode were two of the most important and cutting-edge growers in the Alexander Valley. They brought wire trellising, broad-scale drip irrigation, leaf pulling and other modern viticulture techniques to this bucolic AVA. The third founding member, David Ready, was the marketing expert of the group - bringing the signature personality to the brand.

In addition to harvesting fruit from estate vineyards in the Alexander Valley, the winery sources fruit from a handful of premier grower vineyards primarily in Sonoma County and throughout California's coastal vineyards. Under the watchful eye of David Ready, Jr., winemaker since 2001 and son of co-founder, David Ready, Murphy-Goode's wines are pure, ripe, fruit driven and elegant.

NIELSONWINES.COM

When a man plants a vineyard where, by all rights, no vineyard should be planted, it’s seen as folly. When the vineyard becomes one of the world’s best sites for Pinot Noir and Chardonnay, it’s called vision. We are guided by the pioneering spirit of our namesake, Uriel J. Nielson, who planted Santa Barbara’s first commercial vineyard in 1964. This wine region is unpretentious, yet meticulous, and home to pioneers and adventurers who are driven by the love of the vine. The Nielson Vineyard in Santa Barbara County’s Santa Maria Valley AVA is our home, and represents the legacy of boldness, risk-taking, and experimentation embraced by our founders and carried on by our winemaking team today.

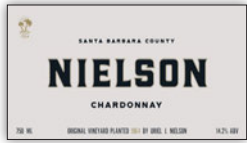

At the core of our DNA is our proximity to the Pacific Ocean. Coastal wind patterns, marine soils, morning fog, and seaside sunsets make Santa Barbara the perfect setting for uncommon wines of stunning minerality, acidity and balance. Breezes flowing east off the ocean through transverse valleys create one of the world’s longest growing seasons, creating wines with complex aromatics. And different pathways taken by wind and fog through hills and valleys manifest dozens of unique microclimates, delivering complex, balanced blends that beg discovery.

In the cellar, we utilize small-lot winemaking techniques to showcase the nuances and character of each wine, such as hand pruning, block-by-block harvesting, barrel fermentations and lees stirring. These precise winemaking and vineyard practices are combined to create complex wines that embody the culture, lifestyle and flavor of Santa Barbara County.

PENNERASH.COM

In 1998, Lynn and Ron Penner-Ash founded Penner-Ash Wine Cellars in the Northern Willamette Valley’s Yamhill-Carlton AVA. The pair built their LIVE (Low Input Viticulture and Enology) certified sustainable gravity-flow winery surrounded by a 15-acre Estate Vineyard. The building seems to spring from the land itself—a reflection of the values, spirit and winemaking philosophy of Penner-Ash. The wines reflect the Willamette Valley’s distinct textures, flavors and terroir, with beautiful elegance and balance. Decades-long relationships with grower neighbors and friends provide access to fruit from the region’s most distinguished vineyards, including Shea Vineyard, Bramble Hill Vineyard, and Zena Crown Vineyard. Grounded in these partnerships, filled with respect and admiration for this land, Penner-Ash Pinot Noirs are lush and inviting—a textural experience from start to finish.

Lynn Penner-Ash began her career in the Willamette Valley with Rex Hill Vineyards in 1988, as one of the first female winemakers in Oregon. As a pioneer in the Willamette Valley, Lynn built the foundation of her legacy as a ‘master blender’ of the Willamette Valley AVA, and an early champion of the region’s promise. Today, Winemaker Kate Ayres, has been entrusted to carry forward the longstanding relationships that Lynn has fostered over the past twenty years. In the winery, Kate and her winemaking team focus on small-lot indigenous yeast fermentation with extended cold soaks to extract a rich, fruit-focused, textured mouth feel. Each lot is vinified separately then artistically crafted into single vineyard wines, as well as blended to create the flagship Penner-Ash wine, the Willamette Valley Pinot Noir.

MATT REVELETTE

SIDURI.COM

Siduri, named for the Babylonian goddess of wine, is the result of our founders, Adam Lee and Dianna Novy's, mutual love of Pinot Noir, and their dream that they could make great wines of their own.

Buoyed by that dream, Adam and Dianna left their native Texas and moved to California's wine country. They spent years working at small, family-owned wineries and using any and all free time learning everything they could about growing grapes and making wine. In 1994, they released the inaugural vintage of Siduri to critical acclaim.

Today, Siduri's breadth and depth of Pinot Noirs is truly unique. We specialize in cool-climate Pinot Noir, producing single-vineyard designate wines from over twenty exceptional vineyard sites stretching from California's Santa Barbara County to the Oregon's Willamette Valley. We're also thrilled to produce Pinot Noir's Burgundian partner with the debut of the Siduri Willamette Valley Chardonnay in 2019.

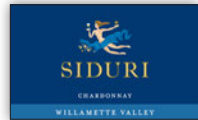

Joining the family in 2019, Winemaker Matt Revelette, formerly with renowned Pinot Noir producers including William Selyem, Kosta Brown and Sojourn Cellars, is living out his dream carrying on Siduri's legacy.

Our winemaking goal is to produce Pinot Noir that best captures the distinct flavor and character of a given vineyard site. To that end, we focus on Pinot Noir and only from sites that provide us with exceptional fruit. We are fanatical in our protection of the vineyard flavor and are determined not to let any overt winemaking components mute the personality of an individual site.

To that end, we practice minimal intervention winemaking at Siduri. In other words, whenever possible we let the wine make itself. We do not want to do anything to the wine that isn't absolutely necessary.

We believe in bottling our wines un-filtered and un-fined. In the vast majority of cases we have been able to achieve this. We avoid these techniques as we believe they have the potential to strip a wine of its flavor. We believe that the best Pinot Noirs express their origins. Our goal is not to produce the world's best Pinot Noir but rather to produce the very best Pinot Noir from a given site.

But perhaps most importantly, we believe that wine should be a pleasure, that serious wine and serious fun aren't mutually exclusive. So in our drive to make great Pinot Noir, we ultimately hope for something relatively simple—good wine to be enjoyed with good friends, good family and good food.

SILVER PALM

YEAR FOUNDED

2007

LOCATION

CALIFORNIA

SILVERPALMWINES.COM

Silver Palm Winery truly represents the best of coastal vineyard fruit, sourcing from select vineyards in some of California's premier coastal appellations, including Napa, Sonoma, and Mendocino county.

Silver Palm is sourced from vineyards that are profoundly influenced by cool coastal air and fog from the Pacific Ocean, resulting in lower summer temperatures and milder winters. These temperate vineyard microclimates are ideal for the cultivation of Cabernet Sauvignon, the king of noble grape varieties.

The cooling effects of California's coastal wind and fog allow grapes to ripen slowly, resulting in crisp acidity and complex, robust fruit flavors. We source the best cool climate grapes all along the California coast to produce a balanced Cabernet Sauvignon with robust flavor.

STONESTREETWINES.COM

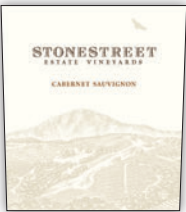

Stonestreet Estate Vineyards stands as one of the most extensive mountain estates in the world and is a testament to the quality of high-elevation winegrowing in California. Here one finds a collection of distinctive single vineyard Cabernet Sauvignons, Chardonnays and Sauvignon Blancs—wines carved from an extreme landscape.

Stonestreet Estate Vineyards is a story of gravitas and one man’s vision to defy the limits of California winegrowing. Purchased in 1995 by Jess Jackson and Barbara Banke, Stonestreet Estate Vineyard is planted high atop Black Mountain, in the eastern portion of the Alexander Valley AVA. Climbing from 400 to 2,400 feet above sea level, Stonestreet Estate is a patchwork of peaks, valleys and ridges defined by high elevations, volcanic soils and cool maritime breezes. From top to bottom, the property possesses more than 20 soil types and 20 temperature zones. To ensure the utmost quality and authenticity, the estate is divided into 290 separate vineyard blocks and sub-blocks. Each section has its own specific rootstocks, varieties, clones and viticultural protocols matched to the complexities of the terrain.

From these divergent terroirs, winemaker Kristina Shideler crafts site-specific single vineyard wines each harvest. Additionally, the Stonestreet portfolio showcases an Estate Cabernet Sauvignon and Estate Chardonnay—a collection of expressive cuvees emanating from the most highly prized vineyard blocks on the mountain during a given vintage.

TENUTADIARCENO.COM

Tenuta di Arceno is an ancient Tuscan estate with a diverse portfolio of the highest quality wines across two classification levels – three wines centered on the native Sangiovese grape in the Chianti Classico DOCG range; and three wines celebrating the estate’s Bordeaux varieties under the Toscana IGT designation. The estate is situated at the southernmost-edge of Chianti Classico in the butterfly-shaped commune of Castelnuovo Berardenga, closest in proximity to Siena and rightfully referred to as ‘the most Senese Chianti Classico.’ It’s home to other world-renowned producers and stylistically distinct from counterparts to the north.

The estate is 1,000 total hectares (2,500 acres) of which 90 hectares (220 acres) are planted to vines – the remaining land is preserved for native vegetation including 50 hectares (125 acres) of olive orchards. Separated into 63 distinct vineyard blocks, the vineyards are planted to 50% Sangiovese and 50% international varieties such as Cabernet Franc, Merlot, and Cabernet Sauvignon. The ancient walled town of San Gusmè, provides a breathtaking backdrop for the vineyards of Tenuta di Arceno.

In 1996, the vineyard team conducted a detailed study of the soil, topography and climate to gain a complete understanding of the complexities of the land. They mapped changes in elevation from 300 to more than 500 meters (985 - 1,640 feet) above sea level in 10 distinct microclimates. These details, along with a more detailed understanding of the diversity of soils – from clay, galestro, sandstone, and basalt – guided decisions around where to plant new vines and varieties. Tight vine spacing, low yields and modern winemaking methods - with an understanding of Italian tradition - result in wines that are rich, pure, regionally specific and highly expressive.

Winemaking at the estate is led by the micro-cru philosophy of vigneron Pierre Seillan and American-born winemaker Lawrence Cronin, who have worked together at the estate for nearly 20 years.

VERITEWINES.COM

The wines of Vérité, French for “truth,” are the result of a combination of old world experience and new world fruit. The diversity of Sonoma County is mirrored in our estate vineyards, with a mosaic of more than 50 micro-crus that provide Pierre Seillan, and his daughter and assistant Hélène Seillan, the complex palette of aromatics, flavors, textures, and structural elements he needs to craft the wines of Vérité.

The soils and microclimates in our mountain and hillside vineyards vary dramatically from block to block, creating small vineyards within vineyards—our palette of soil types. Each is distinct from the others, so we call these special blocks micro-crus. They are the heart and soul of our terroir philosophy at Vérité. Everything we do here—from the vineyard to the bottle—we do with the goal of allowing these micro-crus to transmit the message, or truth, of our soil in Sonoma County. The truth is in our soil; it flows through the vines and speaks clearly in our wines.

Each micro-cru is harvested and fermented separately, then aged in French oak barrels of various custom toasts. Seillan carefully tailors his winemaking techniques and oak regimens to the personality of each lot, providing him with hundreds of unique components to create the architecture of La Muse, La Joie, and Le Désir.

Pierre and Hélène’s philosophy is centered around *la droit du sol*, or “the right of the soil.” He has long believed that wines should express the unfettered voice of the terroir and pursues a holistic and innovative approach to site selection, vineyard design, farming, vinification, barrel selection, blending, and bottling.

“Every hillside, every elevation, and every aspect offers us a different micro-cru. The pure expression of these unique sites has from the beginning defined our winemaking philosophy.”—Pierre Seillan

LA MUSE
COMPOSITION: Merlot, Cabernet Franc, Malbec
ELEVATION: 600–1,800 feet

WillaKenzie Estate is located in the heart of Oregon’s Northern Willamette Valley, in the Yamhill-Carlton sub-AVA. Our founder established WillaKenzie in 1991, inspired by the dynamic rolling hills that reminded him of his Burgundian roots. The Estate is named for the marine sedimentary soil series on which the vineyard is planted, in keeping with tradition that great wines reflect a true sense of place.

The signature of WillaKenzie Estate is its range of benches, ridgelines, elevations, slopes, exposures, and clonal plantings, making WillaKenzie one of the most diverse estates in the Willamette Valley. As the first LIVE (Low Input Viticulture and Enology) certified winery, WillaKenzie remains committed to its sustainable practices by preserving the biodiversity of the land to ensure long-term health of our vines and soil. Additionally, on average our estate offsets 37% of overall energy use from our on-site solar array.

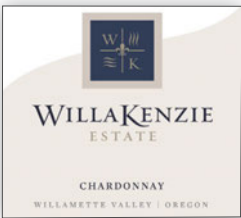

Erik Kramer joined WillaKenzie Estate as winemaker in early 2017, bringing over thirteen years of Willamette Valley winemaking experience to the winery. In his previous roles, Erik built a reputation for highly-acclaimed, terroir driven wines of finesse and balance. A scientist by training, Kramer worked as a hydrogeologist in the petrochemical industry before combining his passion for science and appreciation for fine wine into a career. Erik draws on his scientific curiosity in his approach to winemaking, believing you’re as good as the amount of dirt on the bottom of your boots. He focuses on understanding individual terroirs to craft wines that reflect a sense of place.

WINDRACERWINES.COM

WINDRACER

Thoroughbred wines from the Pacific Coast’s most esteemed vineyards.

WindRacer is the culmination of a deep friendship, love of wine and the pursuit of excellence. From the rugged North Coast vineyards of Sonoma and Mendocino Counties, these wines display exceptional quality that comes from the highest pedigree. Sourced from individual blocks within uniquely-positioned vineyards, the small-lot Chardonnay and Pinot Noir bottlings display an elegant sense of terroir, reflective of these extreme viticulture sites.

High elevations, coastal winds, and rocky, nutrient-poor soils are just a few things that challenge a vineyard during growing season. These difficult conditions result in low yields, small berries, and intense, concentrated flavors in the fruit, ultimately creating a complex profile in the wines.

Like Thoroughbred racehorses, WindRacer wines show a distinct purity that comes from both variety and place. The wines are comprised exclusively of either Chardonnay or Pinot Noir, sourced from select blocks within ideally-positioned vineyards. Winemaker Sarah Wuethrich crafts these wines in individual lots with minimal intervention. Her goal is simple: to reveal the unique sense of place found within each of these remarkable vineyards.

SARALEE'S VINEYARD CHARDONNAY
SOURCING: *Russian River, Sonoma County*
BARREL AGING: *10 months, 42% new French oak*
location
Located in the Russian River Valley, the vines sit near the Petaluma Gap, where wind and fog whip through daily from the Pacific Ocean.

TIDAL BREAK VINEYARD CHARDONNAY
SOURCING: *Sonoma Coast, Sonoma County*
BARREL AGING: *10 months, 35% new French oak*
This vineyard sits just above the fog line, allowing the warm sun to balance out the strong, cool afternoon winds.

ALEXANDER MOUNTAIN ESTATE CHARDONNAY
SOURCING: *Alexander Valley, Sonoma County*
BARREL AGING: *10 months, 35% new French oak*
Grown on the western ridge of the Mayacamas Mountains, the grapes for the Alexander Mountain Estate Chardonnay benefit from complex soils and cool sunshine.

SEA LIFT VINEYARD PINOT NOIR
SOURCING: *Sonoma Coast, Sonoma County*
BARREL AGING: *10 months, 38% new French oak*
Just five miles from the Pacific Ocean, the Sealift Vineyard sits in the “true” Sonoma Coast, where a small enclave of dramatic vineyards thrive in this cool climate, creating stunning Pinot Noirs.

EDMEADES VINEYARD PINOT NOIR
SOURCING: *Anderson Valley, Mendocino County*
BARREL AGING: *10 months, 42% new French oak*
The historic Edmeades Vineyard sits on a plateau above the Navarro River, just west of the small town of Philo. High density vines are planted in clay loam soils.

LINGENFELDER VINEYARD PINOT NOIR
SOURCING: *Russian River Valley, Sonoma County*
BARREL AGING: *10 months, 33% new French oak*
Grapes are sourced from the Martini block, originally planted in 1996, inhibiting Huichica loam soil.

BLOOMFIELD VINEYARD PINOT NOIR
SOURCING: *Russian River Valley, Sonoma County*
BARREL AGING: *10 months, 38% new French oak*
Foggy mornings and cool, windy days allow the grapes to ripen slowly over a long growing season for complex flavor development.

YANGARRA

WINEMAKER

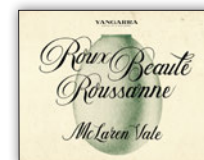

PETER FRASER

YANGARRA.COM

Yangarra Estate is a biodynamic wine farm located in the Blewitt Springs district of McLaren Vale, South Australia. Located a 40-minute drive south of Adelaide, the McLaren Vale winegrowing region has a Mediterranean climate, characterized by warm, dry summers with cool, wet winters. The property spans 170 hectares (420 acres), with 100 hectares (250 acres) of planted vineyards divided into 35 individual blocks. The remaining unplanted land is preserved in native vegetation, creeks and natural corridors. Yangarra's history began in 1946 when the non-irrigated bush-vine Grenache, that still thrives at the estate today, was first planted.

Yangarra is devoted to producing wines from the best grape varieties of the Southern Rhône - primarily Grenache, Shiraz and Roussanne. Yangarra's combination of rare geologies, moderate altitude, abundant sunshine and cool evening breezes makes it perfect for growing varieties that thrive in these moderate maritime environments. The soil types vary from ironstone gravel to alluvial and wind-blown sands. By farming biodynamically, Yangarra fosters a healthy environment for beneficial insects and native wildlife while maintaining healthy soils and vines to sustain this piece of land for generations to come. The respect of this special estate is evident in the wines produced - every one is a confident reflection of the land.

Yangarra was acquired in 2001 and highly-acclaimed winemaker, Peter Fraser, has been the sole winemaker for the estate. Peter focuses much of his attention on the vineyards. When it comes to winemaking philosophy, he believes it is less about technique and more about preserving the essential taste of the vineyard; he knows that intelligent viticulture is the key to creating great wines. To that end, Peter continues to experiment with various clay, ceramic, and stone vessels, in addition to larger format oak for fermentation and aging in large part due to the purity that these vessels impart into the wines by allowing them to breathe - similar to an oak barrel, but without imparting any oak flavors or tannins.

ROUX BEAUTÉ ROUSSANNE

COMPOSITION: 100% Roussanne
VINES AND SOILS: Single block, solely picked from Block 6A of the estate. Weathered sands mixed with ironstone gravel soils

AGING: Fermented and matured in 675L ceramic eggs

FABIAN KRAUSE

ZEITLOSWINES.COM

Through the collaboration of three friends, winemaker Fabian Krause, Chris Jackson and Master Penman Jake Wiedmann, Zeitlos is an expression of true artistry from vine to bottle with a philosophy of patience, quality, and integrity.

As fathers, they focused on crafting wines to withstand time and garner appreciation across generations. Meaning “timeless” in German, Zeitlos embodies a classic representation of German-inspired winemaking from extraordinary California terroirs. Each wine showcases a pure sense of place with minimal intervention and thoughtful craftsmanship.

ZENACROWN.COM

Zena Crown Vineyard is located in the Willamette Valley's Eola-Amity Hills AVA. Since its third leaf, Zena Crown Vineyard Pinot Noir has been an acclaimed single-vineyard designate for top producers such as Beaux Frères, Soter Vineyards, and Penner-Ash Wine Cellars.

Since the 2013 vintage, Zena Crown Vineyard has crafted site specific Pinot Noirs under its namesake - capturing the vineyard's changing moods and expressions just as if it were a living, breathing thing. As Winemaker Shane Moore adapts to its rhythms and natural oscillations, he seeks to explore and manifest the singular voice of this special piece of land, in accordance with the remote and rugged beauty of the Eola-Amity Hills.
